

DPUK Open Access policy

- DPUK Discovery Award requires open access publishing
- DPUK is a champion of 'open access' publishing in science. This allows readers to access papers free of charge, without print or online journal subscription charges.
- The aim is to broaden opportunities for high-quality research findings to be widely disseminated and freely available, and to advance biomedical research worldwide.
- DPUK will publish all research funded results on their website www.dementiasplatform.uk
