

Dementias Platform UK (DPUK) Open Access Policy

- DPUK Discovery Award requires open access publishing
- DPUK is a champion of 'open access' publishing in science: this allows readers to access papers free of charge, without print or online journal subscription charges
- The aim is to broaden opportunities for high-quality research findings to be widely disseminated and freely available, and to advance biomedical research worldwide
- DPUK will publish all research funded results on their website: www.dementiasplatform.uk
